

**Websites and Email provide both a time and a cost effective mechanism to communicate and interact with your local community and is easier than you may think to set up...**

**One Voice Wales** have joined up with **Vision Websites** to support and enable all member councils of One Voice Wales to develop your own website for the first time or provide you with a website that will enable you to fully interact with your local community.

### **What is on offer to members of One Voice Wales?**

- Presentations about the Internet and its benefits plus Question and Answer sessions.
- Access to telephone help and support directly from Vision Websites.
- Reduced purchase costs.
- Free group website training. +
- **All Vision Websites will be offered with a FREE additional Welsh Language website or additional web pages.**

### **V4 Start-Up Website**

A new website with up to 7 pages specially created to enable small councils in Wales to develop a cost effective information website, complete with two mails and the ability for the website to be further developed with additional facilities as and when required. Year 1 Costs £115 + plus an £85 setup fee. (Year 2 cost of £115 including free upgrade to V4).

### **20% Discount on all other V4 and V4 Interactive Websites**

- V4 Standard Website – £220 (normal price £275)
- V4 Interactive Website – starting from £316 (normal price £375)
- Complete website packages including hosting, email and domain name.
- .gov.uk domains £100 can be registered.

### **Help and Support**

Above all staff at Vision Websites are always there to give you the help and support that councils often need when, maybe, for the first time you are thinking of setting up and maintaining a website – they will always be there to help and support at all times.
